

GODLY RESPONSE TO ABUSE IN THE CHRISTIAN ENVIRONMENT
Empowering Christian Communities to Recognize, Prevent, and Respond to Abuse

The work of GRACE can be profoundly difficult and challenging on so many levels as we try and do our best to confront and address abuse within the Church and to support and advocate for the many survivors we have been privileged to know and grateful to learn from during these past many years. We are committed to being teachable when concerns about our organization are brought to our attention and to listening to those who may have concerns or questions regarding our decisions.

GRACE is blessed to have a highly skilled and qualified leadership team, led by Pete Singer, our Executive Director. Pete and the rest of our leadership team - Amy Stier, Mike Sloan, Zane Hart, and Samantha Kilpatrick - are spending their lives on the front lines as they tirelessly work to carry out the mission of GRACE. Finally, our team is ever thankful and humbled to work alongside so many survivors and advocates as we labor together for a common and just cause. Pressing forward together...
